

How To BE A

PRO

AT STORYBOARD PRO

- ① QUICK BASICS
- ② SETTING UP your WORKSPACES/  
PREFERENCES
- ③ DRAWING
- ④ DRAWING FAST (SHORTCUTS!)
- ⑤ CAMERA
- ⑥ CONFORMATION (SBP IN PRODUCTION)

# TWO MAIN IDEAS...

- DRAW EFFICIENTLY

- KEEP IT NEAT!

(your future TEAMMATES will THANK you)

QUICK  
BASICS

# .SBOARDS

## VS

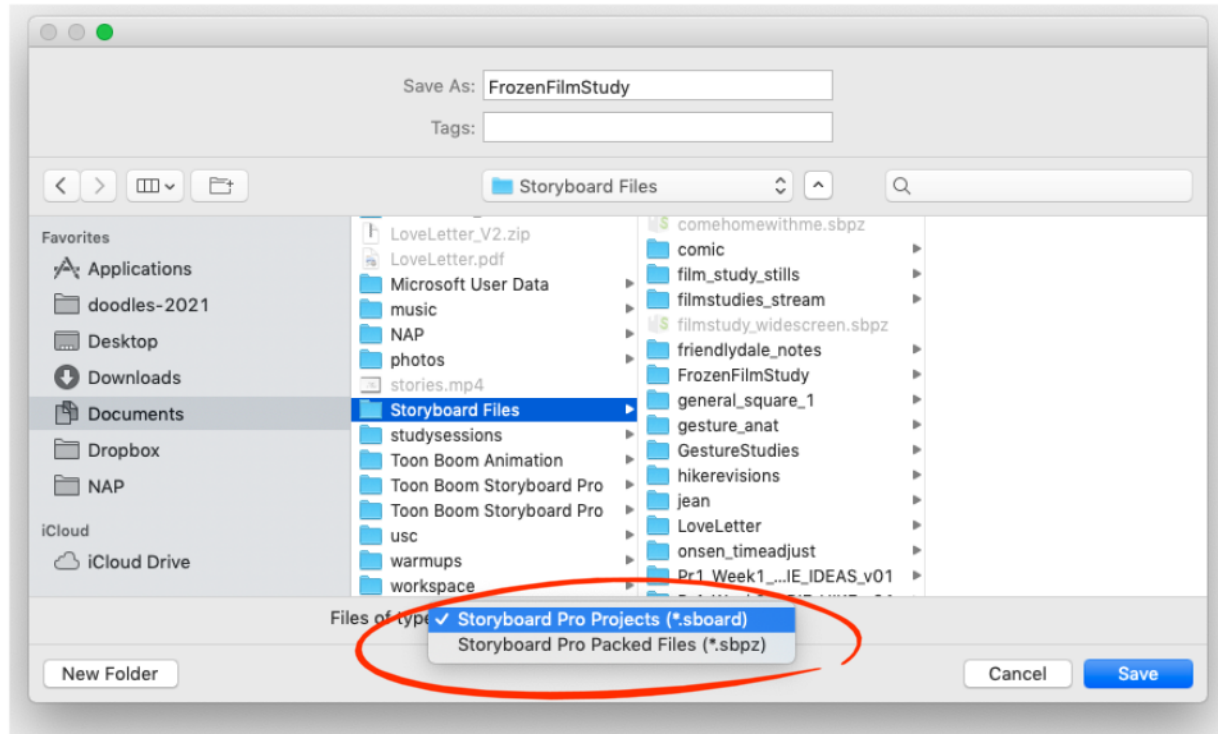

# .SBPZ

TOOL PROPERTIES,  
PANEL, STORY BOARD,  
COLOR SWATCHES

ARRANGE THESE IN your  
OPTIMAL SETUP!

# DEFAULT LAYER LAYOUT

STORYBOARD PRO SETS THE DEFAULT LAYERS TO BG + A. EVERY TIME YOU CREATE A NEW PANEL, IT WILL HAVE THOSE SET UP. YOU CAN CHANGE THE DEFAULT TO BE WHATEVER SETUP YOU'D LIKE INSTEAD, FOR WHEN YOU CREATE NEW PANEL.

SETUP YOUR LAYERS.

GOTO **LAYER** > **SET LAYER AS DEFAULT**

# SAVING your PERFECT WORKSPACE

WINDOWS > SAVE WORKSPACE AS...

*\* NOTE: THIS IS NICE TO DO, EVEN IF YOU DON'T ANTICIPATE ADJUSTING YOUR WORKSPACE OFTEN. IF YOU EVER ACCIDENTALLY MUCK UP THE WINDOWS OR SOMETHING WONKY HAPPENS, YOU CAN ALWAYS GO BACK AND RESET IT TO YOUR SAVED WORKSPACE. SAVES YOU TIME & EFFORT TO REDO IT ALL!*

DRAWING

DRAWING

EFFICIENTLY

FOR BACKGROUNDS, ESPECIALLY ONES THAT DO NOT CHANGE THROUGHOUT THE WHOLE SCENE, YOU CAN SET UP A **SHARED DRAWING**.

THIS MEANS YOU LINK A LAYER SO THAT ANY CHANGE THAT GETS MADE ON THAT LAYER IS DUPLICATED ACROSS ALL THE PANELS WHERE THAT DRAWING IS SHARED.

# TEXTURED BRUSHES...

LET'S DISCUSS.

- IMPACT ON FILE SIZE
- USE CASES
- OTHER EFFECTS

SHORTCUTS

# LOOK UP BEN JUWONO ON TWITTER.

gold mine of  
knowledge!!

...

Might be a good idea to gather all these long threads I've done since I myself am having trouble finding them lol. So here they are in a MOMENT:

⚡ "General Storyboard Tips & Tricks"

[twitter.com/i/moments/9860...](https://twitter.com/i/moments/9860...)

💖 3.4K

ULTIMATELY, SHORTCUTS DEPEND  
ON you!

EVERYONE HAS DIFFERENT PREFERENCES ON WORKFLOW. YOUR IDEAL SETUP WILL BE  
AFFECTED BY LOTS OF FACTORS, WHETHER YOU ARE A RIGHTY OR A LEFTY, WHAT  
TOOLS YOU USE THE MOST, WHAT INFORMATION IS IMPORTANT TO YOU...!

THE BEST WAY TO FIGURE OUT YOUR PERFECT SETUP IS  
TO JUST USE THE PROGRAM A LOT.

# SOME ADVICE...

IF YOU FIND YOURSELF GOING THRU THE UI MORE THAN 3  
TIMES FOR ANY ACTION DURING ONE STORYBOARDING  
SESSION, MAKE A KEYBOARD SHORTCUT FOR IT.

★ THE TIME IT TAKES TO MAKE THAT SHORTCUT IS THE SAME AS IT IS TO GO FIND THE  
TOOL THROUGH THE UI 3x. SAVE YOURSELF THE TROUBLE NEXT TIME!

# SOME ADVICE...

IF YOU EVER HAVE THE THOUGHT "WOW IT WOULD BE SO GREAT IF I COULD DO [X]!", CHANCES ARE, IT'S POSSIBLE.

★ SBP HAS A GREAT SCRIPTING INTERFACE. IF YOU'RE FAMILIAR WITH JAVASCRIPT, YOU CAN PRETTY EASILY WRITE YOURSELF SCRIPTS TO DO WHATEVER YOU DREAM OF. THERE'S ALSO A COMMUNITY ONLINE THAT YOU CAN TAP INTO, AND LOTS OF EXISTING SCRIPTS THAT DO LOTS OF HELPFUL THINGS (I.E. REMOVE ALL EMPTY LAYERS IN YOUR PROJECT FILE)

# SOME ADVICE...

CHECK OUT THE DOCUMENTATION!! SBP HAS A LOT OF FEATURES, BUT ALL OF THEM ARE WELL-DOCUMENTED ON THEIR WEBSITE. YOU'LL BE ABLE TO FIND HANDY GUIDES AND SCREENSHOT WALKTHROUGHS FOR ANY FEATURE.

# CONFIRMATION

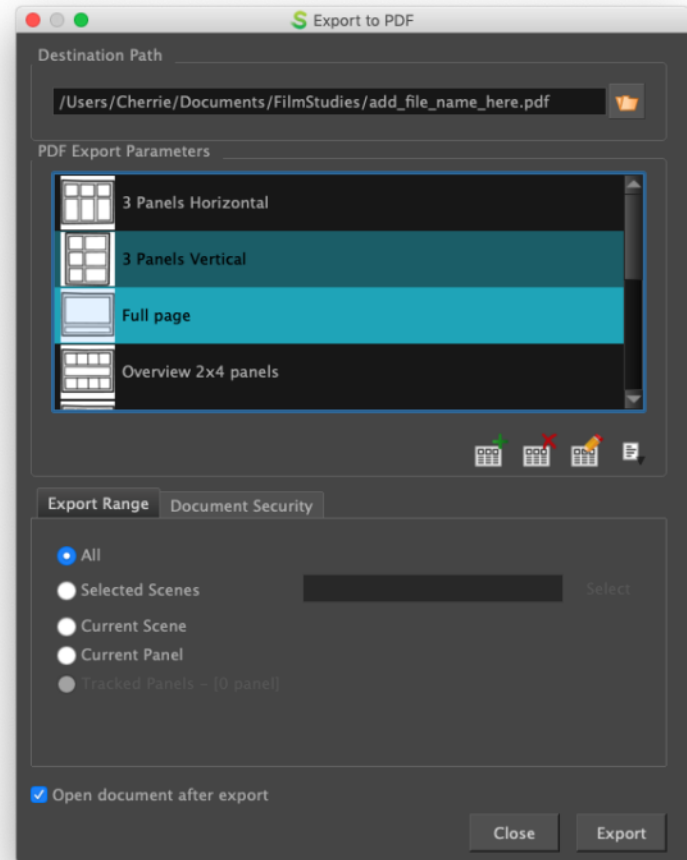

& NICE TO KNOWS FOR PRODUCTION

# MAIN WAYS you CAN EXPORT:

## - PDF

IF YOU ARE LOOKING TO HAVE A FLIP-THROUGH PDF OF YOUR STORYBOARDS TO UPLOAD ONTO SPEAKERDECK FOR YOUR PORTFOLIO, WHAT I DO IS EXPORT A FULL PAGE PDF, THEN CROP THE EXTRA TOONBOOM FRAME OUT IN ADOBE ACROBAT.

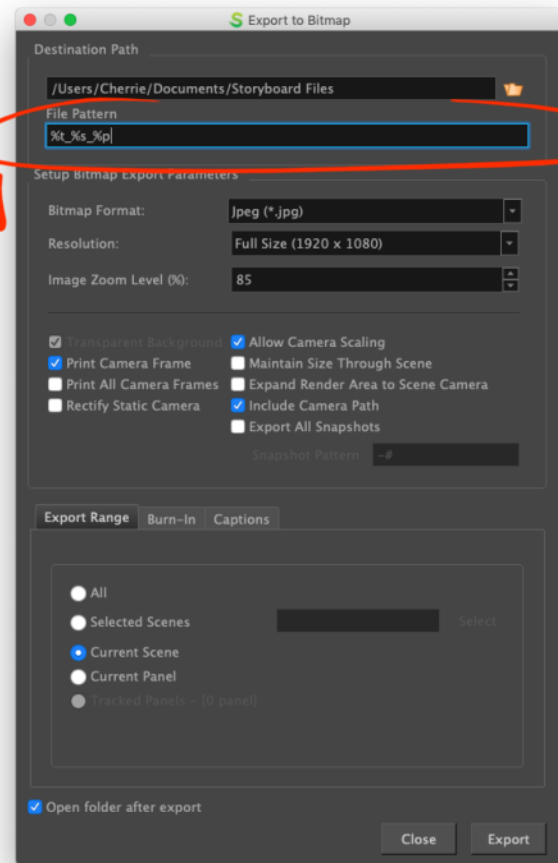

# MAIN WAYS YOU CAN EXPORT:

## - JPEG IMAGES

IF YOU ARE LOOKING TO HAVE ALL OF YOUR PANELS EXPORTED AS JPEGS, USE EXPORT TO BITMAP. YOU CAN DESIGNATE A NAMING CONVENTION FOR THE IMAGES IN THE FILE PATTERN FIELD

% MEANS IT WILL BE REPLACED BY:

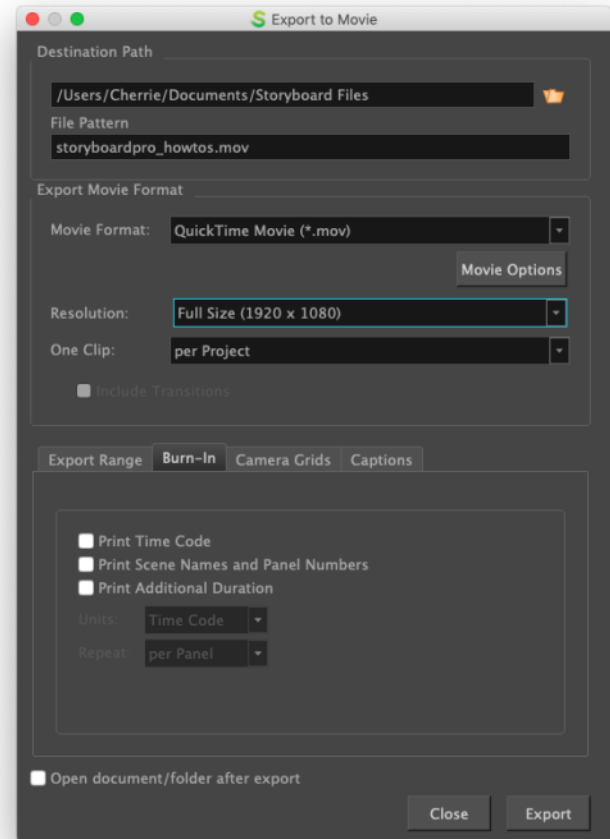

t (project title)	p (local frame number in panel)
s (scene name)	F (global frame number in timeline)

# MAIN WAYS YOU CAN EXPORT:

## - ANIMATIC

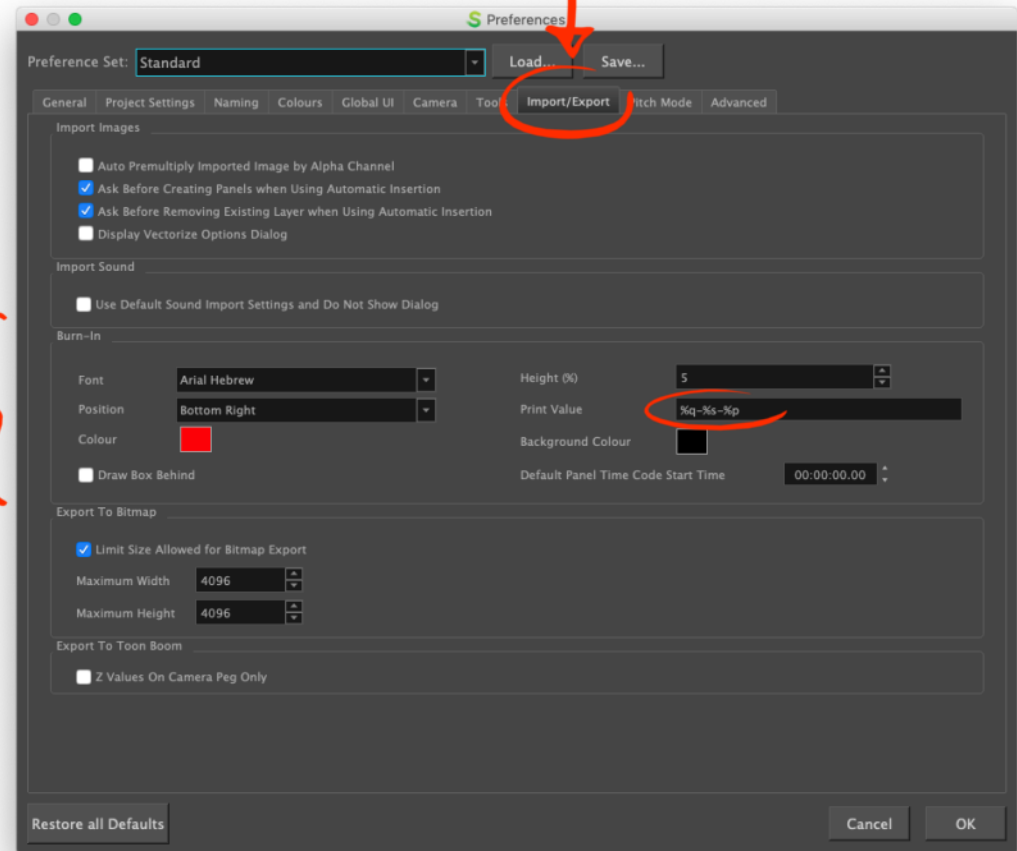

IF YOU ARE LOOKING TO EXPORT AN ANIMATIC, USE EXPORT TO MOVIE. YOU CAN CHECK WHETHER YOU WANT THE TIMECODE PRINTED, SCENE NUMBERS AND PANEL NUMBERS, CAMERA GRIDS, ETC IN THE SECTION

# STORYBOARD PRO > PREFERENCES

THIS IS WHERE YOU CAN ADJUST  
THE BURN-IN SETTINGS FOR YOUR  
VIDEO AND IMAGE EXPORTS

ON A PRODUCTION, THERE WILL LIKELY BE A  
STANDARD CONVENTION SET FOR THE WHOLE  
CREW, SO YOU'LL ADJUST YOUR SETTINGS TO  
WHATEVER THAT IS.

# CLEAN UP your SCENE NUMBERS!

WHILE YOU'RE WORKING, IT'S COMMON FOR YOUR SCENE NUMBERS TO GET QUITE JUMBLED AS YOU'RE MAKING CHANGES, CUTTING, ADJUSTING, ETC.

 Toon Boom sbp\_basics

NONSENSICAL?!

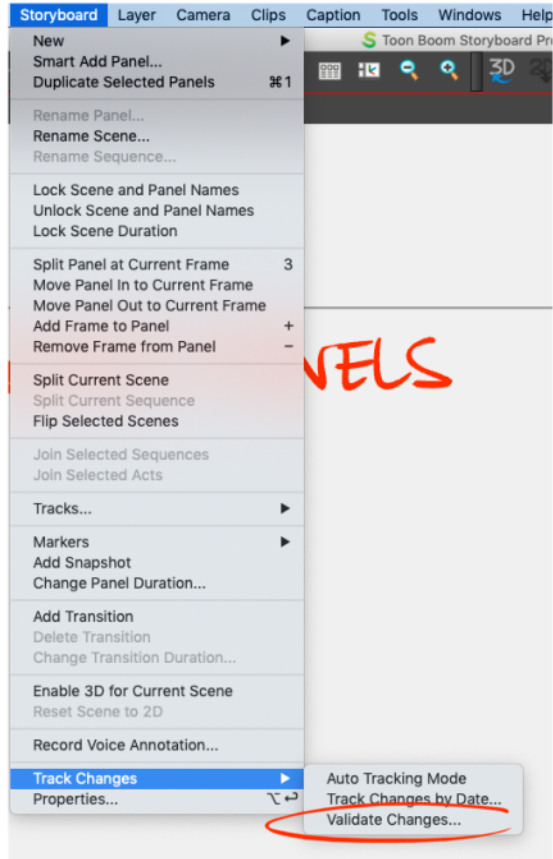

Page 1/3

Scene	Duration	Panel	Duration	Scene	Duration	Panel	Duration	Scene	Duration	Panel	Duration
1_A_0_A_0_A	01:00	1	01:00	1_A_998_A	01:20	1	00:18	1_A_998_A	01:20	2	00:07

MAKE SURE TO RENAME THEM TO BE COMPREHENSIBLE SO THAT 1) THE EXPORT DOESN'T COME OUT FUNKY AND 2) THE NEXT ARTIST DOWN THE LINE HAS AN EASIER TIME UNDERSTANDING YOUR WORK

STORYBOARD > RENAME SCENE > RENUMBER

# TRACKED PANELS

WHEN AUTO TRACKING MODE IS ON, SBP WILL AUTOMATICALLY MARK PANELS THAT HAVE BEEN CHANGED WITH YELLOW.

YOU HAVE THE OPTION TO EXPORT ONLY TRACKED PANELS FOR .MOVS, PDFS, ETC.

TRACKED PANELS CAN BE TURNED OFF BY SELECTING <VALIDATE CHANGES>

# SBP IS THE INDUSTRY STANDARD FOR TV PROD.

EVERY SINGLE SHOW WILL HAVE THEIR OWN PREFERENCES AND CONVENTIONS WITH FILES THAT YOU'LL LEARN WHEN YOU JOIN. BUT!! ONE GREAT WAY TO SET YOURSELF UP FOR SUCCESS & PREPARE FOR WORKING ON A PRODUCTION IS TO REMEMBER...

YOU ARE NOT THE ONLY PERSON WHO WILL BE TOUCHING & WORKING FROM THIS FILE.

REVISIONISTS! DIRECTORS! OTHER STORY ARTISTS!

# GOOD FILE ETIQUETTE

- **KEEP THE FILE SIZE SMALL.** THERE IS NO REASON FOR YOUR FILE TO BE OVER 1GB.
- **KEEP YOUR LAYERS REASONABLE.**
  - LABEL THEM IN A LOGICAL MANNER, AVOID (A, A\_1, A\_1\_1)
  - DON'T GO OVERBOARD AND HAVE AN ENTIRE ENCYCLOPEDIA OF LAYERS. EACH BODY PART DOES NOT REALLY HAVE TO BE ON ITS OWN LAYER.

# HOW TO KEEP THE FILE SIZE COMPACT:

① PROJECT MANAGEMENT > EXTRACT

\* CAN REDUCE SIZE BY OVER 90%

② FILE > OPTIMIZE PROJECT

\* CAN REDUCE SIZE BY ~30%

③ REDUCE ALL UNNECESSARY BITMAP LAYERS & BRUSHES

④ DELETED UNUSED LAYERS

\* THERE IS A SCRIPT FOR THIS!

thank you :)
